Health Report

How to interpret Marley's genetic health results:

If Marley inherited any of the variants that we tested, they will be listed at the top of the Health Report section, along with a description of how to interpret this result. We also include all of the variants that we tested Marley for that we did not detect the risk variant for.

A genetic test is not a diagnosis

This genetic test does not diagnose a disease. Please talk to your vet about your dog's genetic results, or if you think that your pet may have a health condition or disease.

Exercise-Induced Collapse, EIC

Marley inherited one copy of the variant we tested for Exercise-Induced Collapse, EIC

What does this result mean?
This variant should not impact Marley's health. This variant is inherited in an autosomal recessive manner, meaning that a dog needs two copies of the variant to show signs of this condition. Marley is unlikely to develop this condition due to this variant because she only has one copy of the variant.

What is Exercise-Induced Collapse, EIC?
EIC has been linked to a mutation in the DNM1 gene, which codes for the protein dynamin. In the neuron, dynamin trucks neurotransmitter-filled vesicles from the cell body, where they are generated, to the dendrites. It is hypothesized in dogs affected with EIC, the mutation in DNM1 disrupts efficient neurotransmitter release, leading to a cessation in signalling and EIC.

When signs & symptoms develop in affected dogs
Signs develop in juvenile dogs, typically before 3 years of age.

How vets diagnose this condition
Genetic testing, clinical signs, and muscle biopsy can be used to diagnose this disorder.

How this condition is treated
Dogs with this condition are otherwise normal and healthy, though some severely affected dogs have died during an episode. The factors determining the severity of an episode on a given day or in a given dog is unknown.

Actions to take if your dog is affected

- Minimizing or eliminating intense exercise is the best way we currently know to prevent complications from this condition.
